CVR DREAM MEDIA PRIVATE LIMITED

Notes forming part of the financial statements

Particulars

1 Corporate Information

CVR Dream Media Private Limited is a company incorporated in India under the provisions of the Companies Act, 2013. The registered office of the Company is at Plot No. 25, Phase I, Khamdipet colony, Hyderabad-500073.

2 Significant accounting policies

These financial statements are prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on the accrual basis except in certain cases where the Company has opted for the application of the provisions of the Companies Act, 2013.

2.1 Use of estimates

The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions concerning the reported amounts of assets and liabilities, including contingent liabilities and the reported income and expenses during the year. The Management believes that the estimates used in preparing the financial statements are based on reasonable assumptions. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the period in which the results are known.

2.2 Intangibles

Intangibles are valued at the cost of acquisition less any accumulated amortisation and impairment losses. The cost of acquisition includes the cost of acquisition of the intangible asset, including the cost of legal fees, and the cost of amortisation. The cost of acquisition includes the cost of acquisition of the intangible asset, including the cost of legal fees, and the cost of amortisation.

2.3 Cash and cash equivalents (for purpose of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition) highly liquid investments that are readily convertible into a known amount of cash and which are subject to insignificant risk of changes in value.

2.4 Cash flow statement

Cash flows are reported using the indirect method, whereby profit (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and an analysis of changes in operating assets and liabilities. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.5 Depreciation and amortisation

Depreciation is provided for the Wear and Tear Asset Method based on the useful life of the tangible assets presented in Schedule II to the Companies Act, 2013.

2.6 Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Company and the revenue can be measured reliably. Revenue is recognised when it is probable that the economic benefits will flow to the Company and the revenue can be measured reliably.

2.7 Tangible fixed assets

Tangible fixed assets are carried at cost less accumulated depreciation and impairment losses, if any. The cost of fixed assets includes the cost of purchase, including an import duty, and the cost of installation, less any accumulated depreciation and impairment losses. The cost of fixed assets includes the cost of purchase, including an import duty, and the cost of installation, less any accumulated depreciation and impairment losses.

2.8 Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of intangible assets includes the cost of purchase, including an import duty, and the cost of installation, less any accumulated amortisation and impairment losses. The cost of intangible assets includes the cost of purchase, including an import duty, and the cost of installation, less any accumulated amortisation and impairment losses.

2.9 Foreign currency transactions and translations

Transactions and events are recorded in the Company's books of account in the currency of the primary transaction. The Company's financial statements are presented in Indian Rupees (INR). The Company's financial statements are presented in Indian Rupees (INR).

2.10 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.11 Contingent liabilities

Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.12 Contingent assets

Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.13 Contingent liabilities

Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.14 Contingent assets

Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.15 Contingent liabilities

Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent liabilities are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.16 Contingent assets

Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Contingent assets are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

2.10 Government grants, subsidies and export incentives

Government grants and subsidies are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them and the grants subsidy will be received. Government grants whose primary condition is that the Company should purchase, construct or otherwise acquire capital assets are presented by deducting them from the carrying value of the assets. The grant is recognised as income over the life of a depreciable asset by way of a reduced depreciation charge.

Export benefits are accounted for in the year of exports based on eligibility and when there is no uncertainty in receiving the same.

Government grants in the nature of promoters' contribution like investment subsidy, where no repayment is ordinarily expected in respect thereof, are treated as capital reserve. Government grants in the form of non-monetary assets, given at a concessional rate, are recorded on the basis of their acquisition cost. In case the non-monetary asset is given free of cost, the grant is recorded at a nominal value.

Other government grants and subsidies are recognised as income over the periods necessary to match them with the costs for which they are intended to compensate, on a systematic basis.

2.11 Investments

Long-term investments (excluding investment properties), are carried individually at cost less provision for diminution, other than temporary, in the value of such investments. Current investments are carried individually, at the lower of cost and fair value. Cost of investments include acquisition charges such as brokerage, fees and duties.

Investment properties are carried individually at cost less accumulated depreciation and impairment, if any. Investment properties are capitalised and depreciated (where applicable) in accordance with the policy stated for Tangible Fixed Assets. Impairment of investment property is determined in accordance with the policy stated for Impairment of Assets.

2.12 Employee benefits

Employee benefits include provident fund, superannuation fund, gratuity fund, compensated absences, long service award and post-employment medical benefits.

Defined contribution plans

The Company's contribution to provident fund and superannuation fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made.

Defined benefit plans

For defined benefit plans in the form of gratuity fund and post-employment medical benefits, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the scheme.

Short-term employee benefits

The unaccrued amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences, and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences, which are not expected to occur within twelve months after the end of the period in which the employee renders the related service, are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date less the fair value of the plan assets out of which the obligations are expected to be settled. Long Service Awards are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

2.13 Borrowing costs

Borrowing costs include interest, amortisation of ancillary costs incurred and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Costs in connection with the borrowing of funds to the extent not directly related to the acquisition of qualifying assets are charged to the Statement of Profit and Loss over the tenure of the loan. Borrowing costs, allocated to and utilised for qualifying assets, pertaining to the period from commencement of activities relating to construction/development of the qualifying asset upto the date of capitalisation of such asset is added to the cost of the assets. Capitalisation of borrowing costs is suspended and charged to the Statement of Profit and Loss during extended periods when active development activity on the qualifying assets is interrupted.

2.14 Taxes on income

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the provisions of the Income Tax Act, 1961.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantially enacted as at the reporting date. Deferred tax liabilities are recognised for all taxable income available to realise such assets. Deferred tax assets are recognised for timing differences of other items only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisability.
